

Ayşe Elgören

Hello, I'm Ayşe. I graduated from university in June 2020. Then I worked in the frontend field for 4 months where I did my internship. Later, I left there and attended home training and improved myself in the field of software. As a Fullstack developer, I started working on Vbt Software in July. I am still continuing my career in Vbt Software. I mainly look at the backend parts of the projects.
